# **ANNUAL GENERAL MEETING**

Notice is hereby given that the 2020 Annual General Meeting of the Ōtakanini Tōpū Incorporation will be held on:

Saturday 12 December 2020 commencing at 10:00 am at Ōtakanini Haranui Marae

(64 Haranui Road), Helensville

# **AGENDA**

- 1. Karakia Mihimihi
  - 2. Apologies
- 3. Receive and confirm the Minutes of 2019 AGM
- 4. Election of 3 persons to fill three vacancies in the membership of the Committee of Management to replace Hemi Rau, Glenn Wilcox and Lisa Reweti who have resigned since the last AGM.

# **RESOLUTIONS**

- Receive and confirm Consolidated Financial Statements and Auditors Report for the Year Ended 30
  June 2020
  - Appointment of an Auditor and Share Valuer for the Financial Year 2021
  - Remuneration for Committee of Management members of Ōtakanini Tōpū Incorporation remains unchanged for the 30 June 2021 Financial Year

GENERAL BUSINESS (To consider any other matters considered appropriate by the Chair)

# Lunch

**Results from Election** 

Karakia Whakamutunga

# **CHAIR'S REPORT**

## Tēnā tātou katoa

As we close the books on the financial year 1<sup>st</sup> July 2019 to 30 June 2020, I would like to make special acknowledgement to our Ōtakanini Tōpū team. People are central to the success of any organisation and we are very fortunate to have an extremely hard-working team who have remained focussed throughout what has been an exceptionally challenging year. FY2020 has been like no other.

Covid 19 and extreme weather events have played havoc with our returns and have had a direct impact on our bottom line. The drought seen throughout the east and the north, from November through to May impacted on stock production and depletion of supplementary feed. Feed which would have otherwise been utilised in the winter months.

Covid 19 during the Level 4 lockdown brought about below average sale prices due to the closure of saleyards and limited space at the meat processing facilities. With that said, although the final outcome presents as a minor farming loss this FY it is important to note this loss is relative across the sector with reported below average returns due to the extreme unprecedented events of FY2020.

Ōtakanini has made it through relatively unscathed and an important factor when considering the YE2020 bottom line is the option to offload/sell lighter stock prior to the 30 June 2020 in order to reflect a positive return would not have been in the best interests of the business. Due to the lack of feed and idle markets a conscious decision was made to carry stock from FY2020 through to FY2021 to achieve better weights and prices.

Maximising value and margins are important everyday decisions in farming and it is our responsibility to achieve the best possible outcomes for every head of stock we produce.

The wool return remains dismal and there is a renewed drive within the wool industry to find alternative uses and markets for what is an environmentally sustainable natural product!

Due to Covid 19 and increased costs the Makarau Calf Rearing unit was shut down. The Makarau block is currently fully stocked and is providing good grazing for older cattle. As I noted above stock prices were below average during Covid 19 Levels 3 and 4 and we were able to purchase 200kg animals for less than the cost to produce a 100kg animal. The Makarau block has another 3 years on the lease and is certainly still viable for full time grazing of older stock.

A full inventory/stocktake and formal valuation has been undertaken in the Ōtakanini Tōpū Incorporation P. Radiata Forest by independent forestry consultants. The Ōtakanini forest has a current forest age class of 16 -19 years old. The net present forest value of the Ōtakanini forest (tree crop only) is estimated to be \$4,181,000. The forest was registered in 2011 as a Pre-1990 forestland under the NZ Emissions Trading scheme, 589 hectares of forest was registered and Ōtakanini Tōpū Incorporation received an allocation of 35,340 NZU's. These units currently sit in the NZ Emissions Trading Register – Ōtakanini holding account and have an estimated value of \$1,236,900 based on \$35 NZU price, the value of these units have not previously been noted in our financial statements and have been noted in our YE2020 financial statements for the first time. Replanting of the coastal strip that was logged in 2012 will need to be undertaken as soon as possible as this poses as a possible deforestation risk under the NZ Emissions Trading Scheme. Future planning for the forest will be a priority, a long-term harvest plan and strategy is essential.

# OTAKANINI TŌP

Further contributing factors to the above challenges have been; a thorough Asset Audit this year resulting in an increase to depreciation of assets and the annual leave accrual balance added to the financial statements for the first time. These have both impacted on the reported loss.

As a consequence of this and based on recommendations received from both our accountant and farm consultant, the Committee of Management have agreed there will be no dividend distributed to shareholders.

Looking to the future FY2021 we are steam rolling ahead. There are many infrastructure and maintenance projects to address and there is a very real necessity to inject money into our assets in order to lift production and increase margins. Additionally, there are increasing regulations and compliance rules which will inevitably increase operating costs.

Unfortunately, future budgeted returns will be at a minimum for the next few years, with the board's focus being placed on the development and enhancement of the whenua, the stock and the infrastructure. Noticeable improvements have already progressed; from general farm maintenance and tidiness, cleaner looking pastures, robust weed control and fertiliser programs, improving stock genetics and breeding programs and required infrastructure and building maintenance. I have received plenty of positive feedback on the recently improved appearance of the whenua.

Although we have experienced a very busy and disruptive year, solid foundations have been laid for the future and I am proud of what we have achieved thus far. Streamlining our accounting and administration processes have been a priority in order to run our business efficiently.

Communications with our shareholders have improved significantly through our administrative email address with all requests processed in a timely manner – we have received good feedback from shareholders who have been very appreciative of this. Shareholder engagement is a key focus area for the Committee of Management and we encourage you all to update your details on our website.

The share register continues to be overseen by Linda Lafaele and Committee of Management are currently receiving advice on how to progress the outstanding MLC audit which has been ongoing for the past 4 years. The Unclaimed/Undrawn dividend liability has grown to \$730,000 on our financial statements.

Diversification features regularly throughout our historical annual reports. Future diversification will ideally blend with our core values and co-exist with our core business and shall not be undertaken lightly. It is important to ensure our core business is running well with a clear direction with policies and procedures firmly in place before entering into new ventures.

There have been many changes within our business this year. With the resignations of long-serving board members Hemi Rau, Glenn Wilcox and Lisa Reweti, we have had to work exceptionally hard to overcome their departure. I wish Hemi, Glenn and Lisa all the best in their future endeavours and on behalf of the board thank you for your many hours and years of service to Ōtakanini Tōpū Incorporation. I would also like to thank our committee of management for the many hours of work you have contributed this year and I am very mindful of the juggle between our own lives, work commitments, businesses to run, households and families that we sacrifice to make it all happen.

# OTAKAN-U-TOP

To our Ōtakanini Tōpū staff, it has been an exceptionally challenging year for you. You have all risen to and above the challenges and I thank you all for your dedicated hard work, understanding and stability whilst maintaining focus on achieving and delivering value to Ōtakanini Tōpū. With the resignation of Ray Monk, on behalf of Ōtakanini Tōpū Incorporation I wish Ray, Ellie and their whanau all the best for the future.

Ōtakanini Tōpū is a magnificent farm, a landscape of great significance and very much admired. Now is the time to knuckle down, invest in the whenua and collaboratively work together with a shared vision to improve production and returns, and to grow the asset.

I wish you all a very Merry Christmas and a safe prosperous happy New Year.

Ngā mihi

Michelle Hill

# OTAKANINI TŌP

# Farm Report Ōtakanini Tōpū

November 2020

# Overview

This report has been developed to provide an independent overview of Ōtakanini Tōpū's farming operation, including an opinion on where it stands currently and highlight opportunities for the future.

# **Production**

From a production point of view, the 2019-20 financial year has been challenging; while the dry summer/ autumn was not unexpected, all staff have been stretched due to understaffing throughout most of the year, not to mention the additional challenge Covid-19 brought to the table.

Despite these challenges, the ewes achieved 132% lambing (lambs weaned/ ewes wintered), an excellent result compared to the B+LNZ's regional average of 123% (for Class 3 Hard Hill Country) and 128% (for Class 4 Hill Country). Modest average lamb sale weights were achieved, 16.3 kg CWT on works lambs (3,992 head) and 25.8 kg LWT on store lambs (1,224 hd). Average bull carcass weights were 306 kg CWT, relatively modest weights given the proportion of autumn-born and R3 bulls in the mix.

Due to ongoing challenges, the Makarau calf-rearing unit has not proved to be particularly successful. As a result of high calf losses in the first two years of operation, a review of Makarau was undertaken. This review recommended ceasing the calf rearing, although dropping the spring-born calves and rearing only autumn-born calves was the recommended alternative. Although the calf-rearing outcomes subsequently improved, the calf-rearing operation has continued to be a management distraction. Consequently, the calf-rearing operation in the business has been wound up.

# **Profit & Loss**

While the headline Profit & Loss Statement (P&L) records a FY2020 loss of (\$47,994), there are two major factors that have adversely affected this loss:

- 1. The carry-over of extra trade lambs and bulls;
- 2. Inclusion of \$74,705 of Holiday Pay Accruals.

Email: james@farmconsultants.co.nz • www.farmconsultants.co.nz

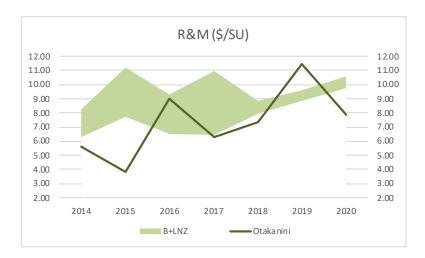

O T A K A N I N I T O P

Due to the dry autumn/ early winter, 1,426 MS lambs and around 40 extra R2yr bulls were carried over to the new financial year (which is equivalent to the 1,207 su increase in the closing stocking rate). In the P&L, the trade stock values are based on the National Standard Cost (NSC). Consequently, the MS lambs are in the P&L at \$36.60/hd (vs. their market value of \$116.00/hd) and the R2yr bulls are in the P&L at \$810.23/hd (vs. their market value of \$1,244.00/hd). The impact of the above anomaly is \$130,600 (being the difference between the market value and the NSC value). Please note that although this is effectively a \$130,600 negative on FY2020 it will be a \$130,600 positive on FY2021.

# Farm Infrastructure

Significant capital spending on fencing and water was undertaken 6-7 years ago. These improvements, along with the riparian protection work undertaken at Ōtakanini, were noted and commended by the 2019 Ahuwhenua judging panel. However, a significant amount Ōtakanini's infrastructure, plant and machinery are nearing their end of useful life. Additionally, the water system sourced from the 'sand-trap' is unreliable and not fit for purpose.

The current condition of the infrastructure is a 'legacy' issue and I believe reflects a combination of a 'stretched' labour-force coupled with ongoing underspending in R&M (the latter compounded by the former). The following graph shows Ōtakanini's R&M spend (dark green line) compared to Beef+Lamb NZ's regional figures for Class 3 to Class 5 land (shaded area). For only two of the last seven years has Ōtakanini's R&M spend been the same or above the regional average.

# The future

Ōtakanini Tōpū has the opportunity to build its profitability and wealth through a combination of:

- 1. Investing in its people to ensure everyone understands *where* it is heading, *why* it is heading there and *how* it will get there;
- 2. Increasing its productivity;
- 3. Increasing the value of production;

Email: james@farmconsultants.co.nz • www.farmconsultants.co.nz

- 4. Investing in its improvements and infrastructure;
- 5. Diversification through adopting a 'highest and best land-use' strategy;
- 6. Expansion through purchasing additional land.

The immediate priority should be on points one to four above. Provided the Committee of Management (CoM) are satisfied that these points are being addressed, both diversification and expansion are real opportunities.

# Investing in people

A continual programme of upskilling all key stakeholders in the business should be considered an essential business investment. Key stakeholders include:

- The on-farm management team;
- All farm staff (permanent and casual);
- The Committee of Management.

Each key stakeholder should clearly understand:

- Ōtakanini Tōpū's vision and values (why we are in business);
- The strategic plan of the business (where the business is heading and how it will get there);
- Their individual role and how they can help Ōtakanini Tōpū achieve its targets;
- The roles of each other stakeholder.

If everyone clearly understands the above, there is a much greater chance that everyone will be jointly working together, paddling the same waka and heading in the same direction.

The CoM has recognised that best-practice governance supported by robust and transparent administration systems are critical to the success of the business. Accordingly, over the last six to nine months, new administration and management processes have been implemented. These new processes have enabled the CoM to identify and rectify various issues (e.g. inclusion of Holiday Pay Accruals in the Annual Accounts) and have helped the CoM to gain greater management oversight (e.g. regular on-farm management meetings between Jeffrey Bradley and Lee Crown).

# Increasing the productivity

The policy mix that Ōtakanini has been transitioning to is aimed at increasing the feed conversion efficiency from improved grazing management strategies combined with focusing production around the strengths of the feed curve (autumn to late spring). Key features of the policy mix include:

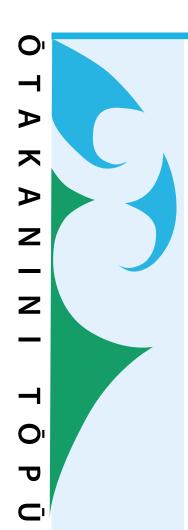

- A significant proportion of the ewes mated to Terminal Sire rams.
- Winter lamb trading ~1,100 hd April to October
- Modest breeding cow policy (~180 calving females)
- Steer finishing policy
- Yearling heifer policy
- Phasing out the bull trading policy

# The expected result:

• Improved match between demand and supply

Email: james@farmconsultants.co.nz • www.farmconsultants.co.nz

# A policy mix that:

- o Leverages off the strength of the feed curve (late autumn to mid spring)
- o Has a reduced feed demand through the summer period.
- Has a reduced proportion of calves and lambs on through the summer
- A significant increase in production and profitability.

# Increasing the value of production

A strategic advantage of the Tōpū is its location, literally on the back door-step of New Zealand's largest domestic market. A key opportunity is for Ōtakanini to focus on supplying local trade beef and lamb at premium prices. However, for premium prices to be attained and sustained, Ōtakanini will need to contract supply and deliver *in-full, in-spec, on-time, every time*. Once the systems are 'bedded in' and we have confidence in our ability and our production systems, we can then look to build the Ōtakanini brand (I see greater opportunity to create brand presence and value within the Tōpū's own backyard than trying to create an international brand presence).

# Investing in infrastructure

To enhance Ōtakanini's ability to achieve its goals, significant investment for capital improvements, plant and machinery should be undertaken. The list of improvements is long and includes:

- 1. Deferred maintenance (fencing, yards, buildings, re-roofing the woolshed, placement of metal around troughs/ gates, and sand-blow protection);
- 2. Upgrading facilities (yards, killing facilities, Shearer's Quarters, houses);
- 3. New infrastructure (satellite yards, laneways, new water system);
- 4. Replacing old and tired plant and machinery (including workshop tools).

The total spend on the above is likely to be over \$750,000. Fortunately, Ōtakanini's strong balance sheet and cash-flow means that there are a number of avenues that can be explored to fund the above, from retention of dividends through to borrowing from the bank.

# **Diversification and Expansion**

Developing a clear vision and strategic plan will guide the decisions on whether it is better to diversify, expand or both.

The upcoming forest harvest has the potential to provide the seed-capital for Ōtakanini Tōpū to transform itself over the coming decades. Some high level analysis has been undertaken on alternative land-use options, including avocados, kiwifruit, Mānuka honey, poultry and novel crops.

In November 2019, KPMG undertook a high-level review of egg and broiler production options, concluding:

- 1. Free-range egg production is currently oversupplied and is "a high-risk investment".
- 2. Free-range broiler production presents an opportunity, although there are questions around location, current land-use (pines) and Resource Consent requirements.

Initial analysis indicates that both avocados and kiwifruit provide the most promising outcomes. However, before any investment in these crops should be considered, a full

Email: james@farmconsultants.co.nz • www.farmconsultants.co.nz

feasibility study needs to be undertaken (including understanding if/ how irrigation needs can be met).

As highlighted earlier, capital investment in infrastructure, development, intensification and expansion does not need to be solely funded from operational surpluses. Ōtakanini can also debt-fund the capital investment/s as well as consider accessing third-party capital through the use of JVs and partnerships.

In closing, although the FY2020 headline figures point to a loss, incremental gains have been made. Additionally, the strong balance sheet provides Ōtakanini Tōpū a strong foundation and the ability to make significant investments to improve the whenua

Ngā mihi,

James Anderson B Agr Sc (Hons) Agricultural Consultant

# **OTAKANINI FOREST VALUATION 2020 - SUMMARY**

Forme Consulting Group Ltd completed a valuation on the Otakanini forest in September 2020. The following provides a summary of the Forest Valuation Report and covers the main findings which drive forest value.

- Net Stocked Area; The forest was remapped with a net stocked area determined at 558.6 hectares. This includes 516.4 hectares of commercial P.radiata crop, and 42.2 hectares of non-commercial protection zone P.radiata and Macrocarpa located outside of the main forest compartment boundary. Most of the second rotation forest was established between 2001 and 2004 meaning the crop is now 16-19years old. Production thinning across the forest was completed in 2019.
- Five distinct croptypes (CT) have been identified across the forest based on the tending (pruning and production thinning treatments) that have been completed.
- CT1, a clearwood regime involving 2-3 pruning lifts and production thinning, covers 106.3ha of the forest area (19%) with pruned heights ranging between 4.0 – 6.0m in height.
- CT2, a framing regime involving low pruning in places and production thinning, covers 323.8ha of the forest (58%). This croptype has been production thinned down to clearwood final stocking levels however there is no pruned log grade recovery because of inconsistent and low pruned heights not meeting pruned log grade specifications.
- CT3, is another framing regime but where no pruning or production thinning was completed due to steeper slopes within the forest. This covers 67.9ha (12%) of the forest area. These areas may now be too tall and dangerous for a thin to waste treatment.
- CT4, the younger 2011 age class covering 16.9ha (3%) of the forest still requires a thin to waste treatment to achieve a framing crop type.
- CT5, the coastal protection strip covering 42.0ha (8%) of the total forest area and was not considered for valuation purposes because of its purpose of protecting the commercial forest and farmland.
- Log yield recovery has been determined by pre-harvest inventory. 165 inventory plots were installed across the forest with the measured tree data then modelled using the YTGen forest growth modelling software to produce a total recoverable volume (TRV) projection across a range of possible future harvest ages. Relatively low TRV's were projected ranging from 355m<sup>3</sup>/ha to 376m<sup>3</sup>/ha for the clearwood regimes and 238m<sup>3</sup>/ha to 371m<sup>3</sup>/ha for the framing regimes at a 26-year harvest age. The unthinned stands had a TRV of 453m<sup>3</sup>/ha to 474m<sup>3</sup>/ha.
- The current net present value of the forest was estimated at \$4,181,000 based on a harvest age of 26yrs and valuation metrics identified above.
- 589ha of the forest, including the coastal protection strip, was registered in the NZ Emissions Trading Scheme in 2011 and for doing so, Otakanini Topu Incorporation received 35,340 New Zealand Units or NZUs. These carbon credits are still in the Incorporation's emissions registry holding account.
- Part of the coastal protection strip was harvested circa 2012 and not replanted meaning there is now potential for deforestation liabilities under the ETS which stipulates that P90 forest areas must be maintained in forest cover. It also means a strip of commercial pine crop along the coastal edge was not thinned with a view that this would form the protection strip for the remaining commercial crop.
- Strong consideration should be given to the re-instatement of the coastal protection forest zone to a) protect the main commercial forest areas for subsequent rotations, and b) ensure ETS compliance. The 'do nothing' approach will impact on the future commercial viability of the main forest crop through coastal damage; and more than likely trigger deforestation liabilities under the Emissions Trading Scheme.

**Yours Sincerely** 

Kevin Reardon, Director, FORME CONSULTING GROUP LTD Registered Forestry Consultant NZIF

# Otakanini Topu Inc

# Notes to the Special Purpose Financial Statements For the Year Ended 30 June 2020

# 1 Statement of Accounting Policies

These are the special purpose financial statements of Otakanin Topu Inc, Maori Authority registered under the Te Ture Whenua Maori Act 1993.

# **Basis Of Preparation**

Otakanini Topu Inc is not considered "large" as defined for a Maori Incorporation, as total revenue does not exceed \$10 million.

These financial statements have been prepared in accordance with the Special Purpose Framework for use by For-Profit Entities (SPFR for FPEs) published by New Zealand Institute of Chartered Accountants and have been prepared for:

- \* Inland Revenue
- \* Internal Management purposes

## Measurement Base

These special purpose financial statements do not comply with generally accepted accounting practice. The special purpose financial statements of Otakanini Topu Inc have been prepared on an historical cost basis, except as noted otherwise below. The information is presented in New Zealand dollars and has been rounded to whole dollars, unless otherwise stated.

# **Changes in Accounting Policies**

There have been no changes in accounting policies. All policies have been applied on a basis consistent with those used in the previous year.

# (a) Revenue

Sales of goods and/or services are recognised when they have been delivered and accepted by the customer.

Interest income is recognised using the cash basis method.

# (b) Property, Plant & Equipment

The entity has the following classes of Property, Plant & Equipment;

- Land
- Buildings Southhead
- · Motor Vehicles Southhead
- · Development -Southhead
- Furniture & Fittings
- Plant & Equipment Southhead
- · Vehicles Makarau
- Plant & Equipment Makarau
- Development Makarau
- Buildings Makarau

Land and buildings have been revalued by \$12,800,000 to reflect 2017 Government Valuation

Depreciation has been calculated in accordance with rates permitted under the Income Tax Act 2007.

# (c) Goods & Services Tax

These special purpose financial statements have been prepared on a GST exclusive basis with the exception of accounts receivable and accounts payable which are shown inclusive of GST.

# (d) Taxation

Income tax is accounted for using the taxes payable method. The income tax expense charged to the Statement of Financial Performance is the estimated tax payable in the current year, adjusted for any differences between the estimated and actual tax payable in prior years.

# Otakanini Topu Inc

# Notes to the Special Purpose Financial Statements For the Year Ended 30 June 2020

# (e) Biological Assets

Livestock has been valued in accordance with current Income Tax legislation at values as set out in the livestock trading accounts. No estimate of market values for livestock has been made.

Forestry is recorded at cost \$64,900. It is estimated that the market value of the forest is \$4,181,000

## (f) Investments

Share investments in listed and unlisted companies are stated at cost, as these holdings are integral to farming operations. Should the nature of these farming activities change, impairment indicators would be considered.

All Term Deposits are classified as Investments.

# (g) Receivables

Receivables are stated at their estimated realisable value.

Bad debts are written off in the year in which they are identified.

# 2 Contingent Liabilities

Unclaimed Dividends

As defined in the Te Ture Whenua Maori Act 1993 Section 267 (1) unclaimed dividends means "dividends in the hands of the incorporation that have been held by it or by a preceding incorporation of body corporate (including the Maori Trustee) for at least 10 years without payment to the shareholder or other person entitled". In accordance with Section 267 (2) of the Act, the incorporation is required, within 12 months of the dividends becoming unclaimed to compile a list of the shareholders to whom those dividends are payable, setting out the amount of unclaimed dividends held for each shareholder and shall transmit the list to the Registrar of the Maori Land Court. The Incorporation is currently undertaking a review of the share register to determine the amount of unclaimed dividends to be provided to the Maori Land Court. The Incorporation carried out a review of Dividends paid from 1998 to 2002 to identify all unpresented cheques, which have been written off. The total value of unpresented cheques identified was \$41,362 but the review could result in amendment to this amount. Since 2002 a further \$59,464 unpresented dividend cheques have been written off.

# Legal cases

Otakanini Topu Incorporated is in a legal dispute with a former employee. The employee has raised various claims, and has filed proceedings with the Employment Relations Authority. The Committee has obtained legal advice which advises Otakanini Topu Incorporated has strong gounds to successfully defend this legal dispute. At present the quantum of the total likely costs regarding this legal action is difficult to ascertain.

# 3 Related Parties

There were no material transactions with any related parties during the year under review.

# 4 Securities and Guarantees

Bank of New Zealand have a registered security over all livestock.

# 5 Forestry

# **Forestry Details**

Forestry is recorded at cost \$64,900. It is estimated that the market value of the forest is \$4,181,000.

The forest is also pre-1990 and therefore was given 35,340 carbon units as part of the government agreement. These units will need to be surrendered on harvest should the forest not be replanted.

# Otakanini Topu Inc Notes to the Special Purpose Financial Statements For the Year Ended 30 June 2020

## 6 **Future Capital Commitments**

There are no future capital commitments.

# 7

Otakanini Topu Incorporated is aware that Covid-19 was declared a global health emergency on the 31st January 2020 by the World Health Organisation. The subsequent announcement by the New Zealand Government that all non-essential business was to close on the 26th March 2020 for two months and the subsequent partial lockdown later in August 2020 have had an impact on customers, suppliers, and staff. Should further lockdowns occur, and business is materially disrupted, the carrying value of the assets may be negatively impacted and additional liabilities may need to be provided for. At this point it is impossible to quantify the financial impact of this ongoing pandemic on the company and its future.

ACCOUNTANTS REPORT

Todd Wilkin, CA MInstD | Withers & Co Ltd | Year Ended 30 June 2020

### To the Shareholders of Ōtakanini Topū Incorporation

Tēnā koutou.

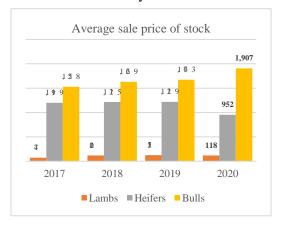

This is my first year presenting to the shareholders of Ōtakanini Tōpū and I would like to thank you for this opportunity. For those who would like to know me I have inserted a brief summary about me at the end of my report.

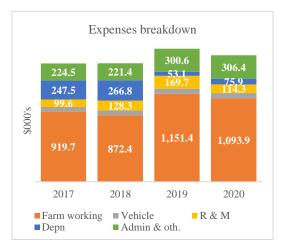

This year has been a challenging year for many organisations, particularly in the primary sector, with the drought and Covid-19 impacting significantly on operations. 2020 has seen the Incorporation incur a loss from its farming operations for the first time in the last 4 years of

\$47,994. Although this is predominantly a timing variance, and likely to reverse next year, it has put pressure on the operations of the Incorporation in the short term.

We have seen the average sale price received for heifers drop markedly and is sitting well below a similar average for other farms in the region, along with a drop in the price received for lambs, which has affected profitability. The average prices that the Incorporation is receiving are below what we are seeing from other, albeit smaller, farms in the region and are also below the comparative averages from Beef & Lamb New Zealand. The numbers of livestock owned has remained relatively stable over the last four years.

Expenses have been managed tightly over time, however, as has been mentioned in Anderson Consultancy's report, repairs and maintenance and depreciation are much lower than other farms of a similar size, which reflects a historical approach of lower investment in the assets and upkeep of the farm and higher distributions to Shareholders. Although this is supportive of short-term profitability, there is likely a large amount of further investment needed in the near future to bring the farm back up to the standard befitting its size and position in the area. Total expenditure has consistently been below the bottom end of Beef & Lamb New Zealand's averages. On a comparative basis we would expect expenditure to be up

around \$2 million, or about \$400k more than is currently being spent per annum.

Wages as a percentage of farming income is currently at 37.5% and represents 33.6% of the overall cash expenses of the Incorporation. This is a very high number and indicates that labour is not being utilised effectively around the farm to generate income. This requires the attention of the committee and the Farm Manager.

Net profit has been relatively volatile over the last 4 years, however, this is comparable to similar farming enterprises and reflects the cyclical nature of the primary sector along with the impact from timing regarding the recognition of income, as we are seeing in the 2020 financial year. The

large profits recorded in 2018 appear to be a result of deliberate moves to sell down stock and are the exception rather than the norm around historical performance. Overall, net profit is at the lower end of expectations for a farm of this size and there are opportunities to increase profitability and performance as outlined in Anderson Consultancy's report. On a comparative basis, a farm of this size should be aiming for earnings from the farm and before a manager's salary of between \$750k and \$1,650k.

The structure of the balance sheet is very solid, with a ratio of liquid assets (current assets plus livestock) to current liabilities of 3.1, which indicates there are \$3.10 of liquid assets for every \$1.00 of current liabilities, which is a strong liquidity position. The Incorporation is well positioned to meet its' near term responsibilities, however, this doesn't take into account the liability associated with undrawn dividends, and this will need to be considered before any long term investment plans are made.

The age of fixed assets on the balance sheet also indicates that a refresh in the near future is likely to be necessary. Excluding land and buildings, the fixed assets of the Incorporation were valued at \$1,010.5k on purchase and have a current book value of \$388.2k. This shows that most of the assets are either nearing or at the end of their useful life and are likely to need replacing.

Not shown on the balance sheet is the liability of ~\$730k in relation to unclaimed dividend monies. This is a significant amount, which funds will need to be put aside to cover and consideration needs to be given to making sure that this can be managed as part of the operations of the Incorporation.

The Incorporation is in a solid position and now needs to consider its' future direction. A comprehensive review and refresh of the strategy is necessary. It needs to be clear on the long-term aspirations of the Incorporation, including how it wants to contribute and support its shareholders and community, to ensure that all parties including; the committee; shareholders; workers; and community, are clear on the goals and objectives. In line with the report from Anderson Consultancy, this will give a much clearer view to everyone of their roles and responsibilities and allow the setting and reporting of target metrics to deliver a greater level of accountability to those involved in the management and review of the Incorporation. Alongside a review of the strategic direction of the Incorporation, a review of the risk appetite should also be undertaken. This will include a review around an appropriate level of debt, if any, as well as the kinds of markets the Incorporation wants to enter.

Because of the loss in 2020, combined with the likely need to increase investment in the near-term to replace the fixed assets of the company, and the need to refresh the strategy and understand what the goals and objectives of the Incorporation are, I do not recommend a distribution to shareholders in this financial year.

Nga mihi,

Todd Wilkin CA, MInstD Director – Withers & Co Ltd

#### About me:

Tēnā koutou, my name is Todd Wilkin and I live in Kaipara Flats in Warkworth. I am married with 3 children, 2 girls and 1 boy who attend Mahurangi College and Kaipara Flats Primary School. I grew up in Oratia, at the foot of the Waitakere Ranges, and got my BCom from the University of Auckland. I am a qualified Chartered Accountant and a member of the Institute of Directors with over 20 years of experience in accounting and corporate performance. My career has focused on corporate performance and risk management, mainly for large corporates, and has seen me work in New Zealand,

Australia, Hong Kong, Indonesia, Kuwait, and Qatar, along with some trips working for company offices in London.

My wife and I moved to Kaipara Flats back in 2016 when we returned from living in Doha, Qatar. We spent 4 years living in Qatar, where I worked for Qatar National Bank. When we returned to New Zealand, I got a job working for Spark New Zealand, looking after their Group corporate performance function. In April 2020, I took over from Simon Withers at Withers & Co and I am currently a Director there alongside Grant Dixon.

We currently have a small lifestyle block in Kaipara Flats where my wife and daughters have their horses and ponies, and my son rides his dirt bike. I am the Chair of the Kaipara Flats Primary School Board of Trustees, as well as a referee with North Harbour Rugby Referee's Association. In the weekends over winter, you will see me out on the Rugby pitch with my son, and over summer, it will be horse events or fishing the west coast at my families bach at Omamari.

INDEPENDENT AUDITORS REPORT

# JAUDIT LED

Level 2, 155 Parnell Road Parnell, Auckland 1052

PO Box 136 Shortland Street Auckland 1140

Phone + 64 9 302 7306 Website www.jsa.net.nz Email enquiries@jsa.net.nz

#### INDEPENDENT AUDITOR'S REPORT

#### To the Shareholders of Otakanini Topu Incorporation

#### Opinion

We have audited the special purpose financial statements of Otakanini Topu Incorporation, which comprise the statement of financial position as at 30 June 2020, and the statement of financial performance, statement of movements in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion the accompanying special purpose financial statements of Otakanini Topu Incorporation on pages 3 to 22, present fairly, in all material respects the financial position of the entity as at 30 June 2020, and its financial performance for the year then ended in accordance with the Special Purpose Financial Reporting Framework for For-Profit Entities (the Framework) published by Chartered Accountants Australia & New Zealand (CAANZ) and also the requirements of Te Ture Whenua Maori Act 1993.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements section of our report. We are independent of the Entity in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other than in our capacity as auditor we have no relationship with, or interests in, Otakanini Topu Incorporation.

#### Emphasis of Matter - Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 1 to the special purpose financial statements, which describes the basis of preparation. The special purpose financial statements are prepared for Inland Revenue and internal management purposes. As a result, the special purpose financial statements may not be suitable for another purpose. Our report is intended solely for the entity, executive committee and its shareholders and should not be distributed to or used by parties other than the entity, executive committee or its shareholders. Our opinion is not modified in respect of this matter.

#### Emphasis of Matter - Shareholder Register Audit

We draw your attention to Note 2 Contingent Liabilities, which states that a shareholder register audit was completed and is currently undergoing a Maori Land Court review. Under section 263 of Te Ture Whenua Maori Act 1993, the entity has to keep a share register and index of shareholders. Our opinion is not modified in respect of this matter.

#### Emphasis of Matter - Covid-19

Without modifying our opinion, we draw attention to Note 7, which explains the impact and uncertainty of the Covid-19 Pandemic on Otakanini Topu Incorporation.

Level 2, 155 Parnell Road Parnell, Auckland 1052

PO Box 136 Shortland Street Auckland 1140

Phone + 64 9 302 7306 Website www.jsa.nef.nz Email enquiries@jsa.net.nz

#### Who we report to

This report is made solely to Otakanini Topu Incorporation's shareholders, as a body, in accordance with the requirements of Te Ture Whenua Maori Act 1993. Our audit work has been undertaken so that we might state to Otakanini Topu Incorporation's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Otakanini Topu Incorporation and its shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

### Executive Committee's Responsibilities for the Special Purpose Financial Statements

The Executive Committee is responsible for the preparation of the special purpose financial statements in accordance with the Special Purpose Financial Reporting Framework for For-Profit Entitles (the Framework) published by Chartered Accountants Australia & New Zealand (CAANZ) and also the requirements of Te Ture Whenua Maori Act 1993 and for such internal control as the Executive Committee determines is necessary to enable the preparation of special financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Executive Committee is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Executive Committee either intends to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with ISAs (NZ), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Executive Committee.

Level 2, 155 Parnell Road Parnell, Auckland 1052

PO Box 136 Shortland Street Auckland 1140

Phone + 64 9 302 7306 Website www.jsa.net.nz Email enquiries@jsa.net.nz

• Conclude on the appropriateness of the use of the going concern basis of accounting by the Executive Committee, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with the Executive Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

JSA Audit Limited

Parnell, Auckland

30 November 2020

**COMMUNITY GRANTS** 

Otakanini Topu 405 South Head Rd, Helensville, 0874

Wednesday the 11th of March, 2020.

To The Administration of the Ōtakanini Topū,

The purpose of this letter is to report on the spending of the funding Ngā Taniwha o Kaipara, Kaipara College Kapa Haka received from the Ōtakanini Tōpū in preparation for the Kaipara Festival Campaign in 2019.

In our application, we stated we would like funding to support us with purchasing on stage and off stage uniform as well as a koha toward our tutors for their many hours of tutelage. The following outlines how the funding was spent:

Tutor Koha: \$2869.57Moko Stamps: \$690.00

Ties: \$500.00Badges: 436.05Fedoras: 262.16TOTAL: \$4757.78

The residual amount of \$242.22 went toward food costs for our Kaipara Festival live in.

The funding not only supported us during our Kaipara Festival campaign, but some of the items purchased will benefit our team for many campaigns and community events to come. Here is a look at some of the events we are currently in preparation for or have already participated in since receiving the funding:

- Friday 25th of October: Kaipara Festival, 2019
- Saturday 29th of February: Helensville A&P Show, 2020.
- Saturday 21st of March: ASB Polyfest, 2020.
- Saturday 28th of March: Waimauku Lions Gala Day, 2020.
- Tuesday 7th of April: Te Tai Tokerau Festival, 2020.
- Wednesday 8th of April: SkyDive Auckland performance, TBC.
- Wednesday 13th of April: SkyDive Auckland performance, TBC.

On behalf of Ngā Taniwha o Kaipara, I would like to thank Ōtakanini Tōpū for the generous financial support we received in 2019, the benefits of which will expand into this year and no doubt, beyond. Mā te huruhuru ka rere te manu. Nā koutou, mātou i whakakahu kia taea ai matou te rere.

Ngā mihi,

Brianne Te Paa HOD Māori Studies Kaipara College

# Te Ahurewa Tapu o Kahurangi. Kahurangi ki Kaipara

Funding account ability report for Ōtakanini Topu funding granted in October 2019

Te Ahurewa Tapu O Kahurangi along with the tamariki and whanau of kahurangi Kaipara started this venture under troubled circumstances. Financial and lack of commitment from tamariki and their whanau but still we soldiered on with our wananga with quite a few of our members not attending. After our second wananga Papa joe cut half the members out and went those who had attended and were committed, which meant quite a lot of tamariki and whanau missed out on attending kaipara festival with the roopu.

On the day of the festival half of our performing children and Papa Joe attended the powhiri at Kaipara College. We were honoured to be called from the back to sit at the front where we upheld te ihi te wehi te wana o nga tupuna o nga marae e rima o kaipara me a matou whanaungatanga kia kotou te whanau whanui ki otakanini topu.

As for our performance our small roopu with their new male kaia from our marae whiti te ra. As the saying goes, great things come in small packages. And once again with a totally new bracket, based on seeking the treasures being lost to maoridom they did us all proud.

With our next wananga we prepared ourselves for the Helensvile santa parade while also trying to rebuild our roopu. With success. And had some of our newer members working very hard to be ready for the parade. 6 days out from the parade we are asked to do another performance on the same day, for Otakakanini Topu AGM in which we hope we did the topu proud.

As for the new year of 2020 we have started our practices, we unfornatley missed one wananga at Haranui, we have our next wananga booked for 17 march we will be starting to work on our upcoming performance's which so far consist of Beautiful Pasifika in Helensville, as per our application Te Koroneihana o Kiingi Tuhatea e noho ana ei runga I te ahurewa tapu o tona whaea te Ataiirangikahu me o nga tupuna nga tamariki mokopuna me te Kahui Ariki.

Unfortunately, due to COVID-19 we are currently on hold, BAUTIFUL PASIFIKA has been postponed to late in the year.

Funding accountability to date of funding granted by otakanini topu.

#### Staff

#### Racheal Timoti (Secretary)

Timatanga: 10:45 am

The AGM was opened with a karakia: Wana Paikea.

Chair, Glenn Wilcox greets the assembly and outlines the format of the Agenda for the day. Chair calls for any other Agenda Items and one (1) is received and confirmed for the Agenda.

Chair advises eight (8) Nominations have been received for Election. Each candidate will be given five minutes each to address the assembly.

#### **Apologies**

Beverley Muruahi   Ramona Taogaga   Phillips Whanau	Beverley Muruahi	Ramona Taogaga	Phillips Whanau
---	------------------	----------------	-----------------

The apologies are received and confirmed.

Moved: Steve Reweti Seconded: Waratah Eruera CARRIED

**Resolution:** 

That the AGM 2018 Minutes be received and confirmed.

Moved: Steve Reweti Seconded: Mau Phillips CARRIED

#### **Matters Arising:**

#### Otakanini Topu Beach Access - Tarawera Road

George Hill stated that he had not enquired about Tarawera Road changes but was telling the committee that it is a public road and wants it noted correctly in the minutes.

Agreed by Chair that it be duly noted and recorded that Tarawera Road is at present a public road.

#### **Farming Report**

Connie Povey queried the comparison in Farming years and stated that it was not just about the drought but also the market prices in 2018.

#### **Elections**

An election was held to replace two members (Mei Hill and Awa Hudson) on the Committee of Management due to their term ending.

#### 1: 2019 Elections

All shareholders were given a voting form upon registering their attendance for this hui. The voting process was explained and Shareholders were advised that the votes would be decided by shares held.

Proceedings commenced with each candidate addressing the assembly with a five-minute presentation. The results of the election to be announced by the Chair at the conclusion of the hui.

Candidates standing for Election are:

Michelle Hill Jeffrey Bradly Glenn Wilcox Lisa Reweti Kiah Medlyn-Reweti Wana Paikea

Hemi Rau Koromiko Richards (non eligible due to no attendance)

#### 2: Farm Report

#### **Resolution:**

That the Farm Report be confirmed as received and accepted.

Moved: Mau Phillips Seconded: Pumau Reweti CARRIED

#### 3: Financial Report

#### **Resolution:**

That the Financial Report from Simon Withers for 2018/2019 is received and confirmed as a true and accurate record.

Moved: Hemi Rau Seconded: Charmaine Tapurau CARRIED

#### 4: Audited Report

#### Resolution:

That the 2018/2019 Audited Report from JSA Audit Ltd Chartered Accountants is received and accepted for the 2018/2019 Financial Year.

Moved: Kapu Wilcox Seconded: Hapai Reweti CARRIED

#### **RESOLUTION:**

That JSA Audit Ltd Chartered Accountants confirmed as Auditor and Share Valuer for 2019/2020.

Moved: Pumau Reweti Seconded: Hemi Rau CARRIED

#### **RESOLUTION:**

A dividend be drawn from accrued profits and reserves of \$1.50 per share and a one-off payment of \$100 (tax free) to be paid per Shareholder and Trust.

Moved: Waratah Eruera Seconded: Arahi Kapea CARRIED

#### 5: General Business

George Hill addressed those present giving a historical recount of the paper road that Otakanini Topu is the adjacent land owner on either side this road. George would like the locked gates unlocked so that access to the beach is not prevented.

Chair explains due to the nature of Otakanini Topu being a working farm, stock, staff and H&S issues, this matter will require further discussions between George and Committee of Management.

#### **Election Result:**

Chair thanked all those who had put their names forward and declared that the successful candidates are:

Hemi Rau	Michelle Hill	Jeffrey Bradly
Lisa Reweti	Glenn Wilcox	

Chair thanked all those in attendance and declared the meeting closed.

Karakia Whakamutunga: Gary Brown

4:30 pm
