### AMENDED NOTICE

### ANNUAL GENERAL MEETING

Notice is hereby given that the 2021 Annual General Meeting of the Ōtakanini Tōpū Incorporation will be held Saturday 12 February 2022, commencing at 10:00 am at Ōtakanini Haranui Marae (64 Haranui Road), Helensville.

### AGENDA

- 1. Karakia Mihimihi
- 2. Apologies
- 3. Chair's Report
- 4. Receive and confirm the Minutes of 2020 AGM
- 5. MACA Claim
- Candidate Presentations Election of three persons to fill three vacancies in the membership of the Committee of Management. (1) position to replace Tuhi Leef who resigned since the last AGM, and (2) End of term positions being Trisya Hemana and Awa Hudson
- 7. General Business (To consider any other matters considered appropriate by the Chair)

### RESOLUTIONS

- Receive and confirm the Consolidated Financial Statements and Auditors Report of the Year Ended 30 June 2021
- Appointment of an Auditor and Share Valuer for the Financial Year 2022
- Authorise by resolution a dividend to eligible Shareholders
- Remuneration of Committee of Management members of Ōtakanini Tōpū Incorporation remains unchanged for the 30 June 2022 Financial Year
- Committee of Management to continue to pursue the existing Claim under the Marine and Coastal Areas Act 2011

### LUNCH

### **RESULTS FROM ELECTION**

### KARAKIA WHAKAMUTUNGA

Nomination and Proxy forms are available to download from <u>https://www.otakaninitopu.co.nz</u> or alternatively can be requested by emailing <u>nominations@electionservices.co.nz</u> There will be NO Proxy Forms accepted on the day

### 22 November 2021

Committee of Management Ōtakanini Tōpū PO Box 183 Helensville 0840

Tēnā koutou katoa,

Re: Ōtakanini Tōpū Committee of Management 2021 election postponed

Nominations for the three Ōtakanini Tōpū Committee of Management positions is due to close on **Tuesday 30** November 2021 at 5pm. With COVID Alert level restrictions still in place, the ability to hold the AGM and the proper electoral process at the AGM can no longer occur.

This message is to advise you that the AGM along with the election has been postponed until **Saturday 12 February 2022**.

Please note that the date for nominations closing will remain the same, **Tuesday 30 November 2021 at 5pm**. Following the close of nominations, if we have received more valid nominations than there are positions to be filled, an election will be required and will take place on **Saturday 12 February 2022** at the AGM. Anyone who has already submitted a valid nomination will remain eligible for election until the new AGM and election date.

It is important to us that we take the health and safety of all Ōtakanini Tōpū shareholders, the Committee of Management and our staff seriously.

We would like to thank you all for your understanding, and we wish you all a safe and healthy holidays.

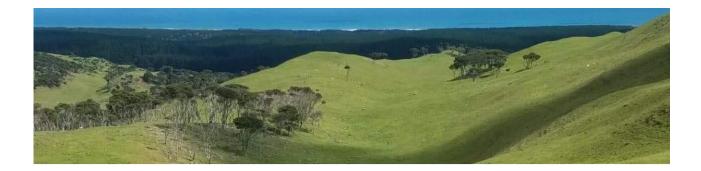

Nga mihi nui.

The Team at Election Services.

Craig Taylor Business Manager//Returning Officer Election Services

### Ōtakanini Topū Incorporation – Report of the Chair

E ngā mana, e ngā reo, e ngā kārangarangatanga tāngata. E mihi atu nei ki a koutou. Tēnā koutou, tēnā koutou, tēnā

It is my honour to provide the 2020-2021 Annual Report on behalf of Ōtakanini Tōpū Incorporation (the Tōpū) and present it to you, our shareholders. This report reflects the activities, outcomes, and financial performance over the period 1 July 2020 to 30 June 2021.

### Covid-19

In a year that has continued to be disrupted by the global pandemic, the Topū has carried on with its essential duties as an agricultural food production provider. The health, safety and wellbeing of our kaimahi has remained a priority at all times throughout the year. The resilience, culture and mindset of our farm team has enabled the Topū to continue to operate for the benefit of our shareholders, during what has again been another challenging year and I want to give full credit to all our kaimahi for their bravery and stamina in rising to this challenge.

### Highlights

Our focus over the past 12 months has been about getting the "basics" right to ensure that we have a strong operating model going forward. In order for us to deliver on our ambitious plans for a prosperous future, we need to ensure that we have robust governance practice, policies, systems, procedures and farm team structure in place. Our Committee of Management remain focused on this kaupapa and have made steady progress by:

- reviewing our farm team structure;
- introducing a workplace wellbeing and employee assistance service for our kaimahi;
- implementing a new Farm Stock Policy;
- strengthening our Health and Safety practices;
- reviewing our Levels of Delegated Authority; and,
- > creating a social media page on Facebook to improve engagement with our Shareholders.

#### **New Appointments**

We have made three new appointments this year including the new Farm Manager, Justin Thompson, the new Office Accounts Administrator, Rebecca Batie and a new 12-month fixed term General Hand, Graeson Stead-Hill. I want to express a warm welcome to Justin, Rebecca and Graeson, who all bring a wealth of skills, knowledge and experience that will strengthen the operations of the Topū.

### **Financial Performance**

A conscious decision was made by our Committee of Management this year to invest back into the farm. We are currently going through a transition with our new Farm Stock Policy, whereby we are going back to beef and no-longer rearing calves. Therefore, as a result of us not purchasing calves this year, the financial impact of this has resulted in a Net Loss from farming for the year of \$34,289 and an overall Net Loss of \$9,889 for the Tōpū.

In addition, it is important to note that we have also invested \$293,000 this year back into our whenua by laying fertiliser and lime to improve the quality of our pasture and we are already seeing noticeable improvements resulting from this investment.

Despite the challenges and disruptions of Covid-19, extreme weather events including a drought and flooding in the Kaipara region and, fluctuations in stock prices, we have managed to keep our outgoing costs under control and our underlying performance of the farming operations has improved to \$105,016. In order to lift our production and increase our margins, a significant cash injection continues to be needed to address infrastructure and maintenance projects and the regeneration of our depleted stock genetics, all of which have been neglected over time.

have in place, we should start to see positive shifts in our productivity for 2022. However, it is noted that with future budgeted returns we will continue to be at a minimum for the next few years, with the Committee of Management focussing on the development and enhancement of the whenua, the stock and the infrastructure. More details are included in the financial statements, which are outlined within this annual report.

### Forestry

The Ōtakanini forest has a current forest age class of 17-19 years old. Historically our forestry has been negligently maintained, the growth of the forest has been stunted due to poor maintenance and overthinning. Despite this, the forest was registered in 2011 as a pre-1990 forestland under the NZ Emissions Trading scheme, 589 hectares of forest was registered and Ōtakanini Tōpū Incorporation received an allocation of 35,340 NZU's. These units currently sit in the NZ Emissions Trading Register - Ōtakanini Tōpū Incorporation holding account and have an estimated value of \$2,297,100 based on \$65 NZU price per unit. It is noted that our units have increased in value by 46% over the previous financial year.

Future planning for our forest is one of our priorities for 2022. We will be working closely with our Forestry Consultants to implement a forestry management plan. We believe it is important that we implement a robust forestry management plan that will realise our long-term environmental, cultural and economic sustainability for the Topū.

### The Ōtakanini Tōpū Incorporation Marine & Coastal Area (Takutai Moana) Claim (MACA)

We have recently submitted a funding application to Te Arawhiti, the crown agency that has been established to support the application process and engagement with the crown under the Marine & Coastal Area (Takutai Moana) Act 2011. More background details are outlined within this annual report.

It is the intention of our Committee of Management to provide an update of the MACA claim at this year's Annual General Meeting and to seek a resolution from our shareholders as to whether the Committee of Management will continue to pursue the existing claim under the Marine and Coastal Areas Act 2011 for Ōtakanini Tōpu Incorporation. We believe it is important to canvas shareholder views to make this decision.

### Makarau

We are currently in our final 2.5-year lease of the Makarau block. This year we have explored the potential opportunity of sub-leasing the block, however, after carrying out a cost/benefit analysis of the land utilisation, a decision was made to continue to graze the block with our older stock. We have recently had to invest a conservative amount of funding to the house on the property to ensure that we are meeting the requirements under the Residential Tenancies (Healthy Homes Standards) Regulations and to honour the maintenance requirements of the existing lease agreement. It is noted that the property is currently tenanted.

### Share Register

Our Secretary, Trisya Hemana-Povey has worked with a number of our shareholders this year who have submitted requests for unclaimed dividends. A decision has been made by the Committee of Management that a working group will be formed in 2022 to focus on outlining a transparent process for succession, for those shareholders who may wish to pursue any unclaimed dividends.

### Leadership and the pathway forward

Our current strategy over the coming 24-month period is to focus on 'getting the basics right' and investing back into the farm to lift our productivity so that we can improve our cashflow returns.

In the first quarter of 2022, our Governance team will embark on setting our direction, vision and values for our next stages of our strategy.

To support us on our journey we have engaged with a number of key strategic advisors. In addition, we have agreed in principle to work with the Whenua Māori team at Te Puni Kōkiri, who will be supporting us to develop our plan. It is important to note that tino rangatiratanga will remain a central focus of our decision-making processes and with any external engagements for the Tōpu.

### **Proposed Shareholder Dividend**

Of the many lessons our Committee of Management have been taught this year due the disruptions of COVID-19, humility and humanity have been key lessons for us all and at the heart of our decision making. As a result we have made the decision to recommend a dividend of \$1.00 per share back to our shareholders in support of our whaanau who may be experiencing hardship at this time. It is noted that this resolution will be proposed to our shareholders at the AGM in early 2022.

#### He kupu whakakapi

There are many people that I wish to acknowledge for their amazing mahi and support over the past year. Firstly, I would like to thank our kaimahi for their tremendous efforts in caring for our whenua. Secondly, I mihi to my fellow Committee of Management for their commitment and acknowledge Tuhi Leef who made the decision to withdraw from the Committee in August of this year.

Finally, to Lee Crown, who has worked for us over the past 18 months in the Acting Farm Manager's role. We wish him well in his career journey, and to both he and Deb, the very best for their future.

As we enter the next stage of the journey for the Tōpu, I remind myself that we have so much to embrace and be proud of. There is much mahi to be done and together with our tūpuna who walk beside us on this journey as kaitiaki of our whenua, we can work together to secure the great future and endurance of the Tōpu, for the future generations to come.

Nāku noa, nā

Eve Steenson Chair

Farm Report Ōtakanini Tōpū January 2022

### **Overview**

This report has been developed to provide an independent overview of Ōtakanini Tōpū's farming operation for FY2021.

### Production

Climatically, FY2021 can be described as one of the more challenging years. Due to wellbelow average rainfall throughout most of the year, the farm did not properly recover from the 2019-20 summer drought until late autumn 2021. Soil moisture levels were already low at the start of the financial year. While some spring growth occurred, the spring was relatively late and short. Feed levels did not build up through the spring as normal and consequently management made the correct decision to offload lambs early with almost 75% of all newseason lamb sales sold store (compared to less than 25% in FY2020).

Despite these challenges, the ewes achieved 129% lambing (lambs weaned over ewes wintered), an excellent result compared to the B+LNZ's regional average of 124% (for Class 3 Hard Hill Country) and 127% (for Class 4 Hill Country). Modest average works lamb sale weights were achieved at 16.0 kg CWT, slightly down on last year's 16.3 kg CWT.

The value of production also decreased year-on-year, with the average works lamb price of \$6.75/kg (compared to \$7.61/kg last year).

The net effect of the higher proportion of lambs sold store combined with the lower sale weight and price per kilogram is that the average lamb sale price of all new-season lambs sold was only \$86/hd, significantly down from the previous year's \$118/hd. Consequently, total new-season lamb sales of \$563,000 was well down on last year, despite more lambs being sold.

On a positive note, FY2021 sheep sales was bolstered by the carryover of the 1,426 trade hoggets (old-season lambs) – most were sold to slaughter for \$115/hd (16.1 kg CWT at \$7.14/kg) with a small proportion sold store at \$97/hd.

### CONSULTANCY

56 Wai-iti Road, Maori Hill • Timaru 7910 • New Zealand Mobile: +64 27 497 5704 Email: james@farmconsultants.co.nz • www.farmconsultants.co.nz

Due to destocking, more bulls were sold this year (518 bulls vs. 312 bulls last year) at an average weight of 300 kg CWT (down slightly from 306 kg CWT last year). As noted in last year's annual report, the sale weights are relatively modest given the proportion of autumnborn and R3 bulls in the mix.

As with the lambs, the value of production also decreased year-on-year, with the average bull price of \$5.25/kg (compared to \$5.93/kg last year). The net effect of the lower sale weight and price per kilogram is that the average bull sale price was \$1,572/hd, significantly down from the previous year's \$1,816/hd.

### Whenua Maintenance

Fertiliser and lime expenditure in FY2021 was \$293,000, significantly above the FY2020 spend of \$113,000. Additionally, Weed & Pest Control and Repairs & Maintenance expenditure was also above last year. The combined whenua maintenance spend in FY2021 is the highest spend over the last eight years, as per the following graph:

### Profit & Loss

Due to the significant drop in livestock numbers through the year, the cash position is significantly better than the Profit & Loss Statement (P&L).

The closing cattle number was 1,003 head, down 404 head from the opening cattle number. Consequently, the net cash proceeds from beef cattle of \$875,000 (sales less purchases) is reduced to a Beef P&L of \$606,000 after accounting for the reduction in the closing cattle number and their corresponding values.

Similarly, the closing sheep number was 7,653 head, down 1,489 head from the opening sheep number. Consequently, the net cash proceeds from sheep of \$794,000 is reduced to a Sheep P&L of \$744,000.

The above helps to explain how the Topū's closing cash position (on-call and term deposits) increased by \$378,000 at year-end.

### The future

FY2021 was a challenging season and although the end result was a Net Loss of \$34,000 (before Tax and Other Income), the Tōpū should not lose confidence in the potential to

A K A N I N I T Ō P C

improve profitability. The reality for any farming business is that adverse seasons will occur and can precipitate financial losses. The challenge for Ōtakanini Tōpū is to build resilience into the farm policy mix to help ensure the impact from adverse climatic events are mitigated.

As highlighted in last year's Annual Farm Report, Ōtakanini Tōpū has the opportunity to build its profitability and wealth through a combination of:

- 1. Investing in its people to ensure everyone understands *where* it is heading, *why* it is heading there and *how* it will get there;
- 2. Increasing its productivity;
- 3. Increasing the value of production;
- 4. Investing in its improvements and infrastructure;
- 5. Diversification through adopting a 'highest and best land-use' strategy;
- 6. Expansion through purchasing additional land.

Overall, FY2021 was a challenging farming year. Despite the challenges, significant gains have been made along with continued improvement to the whenua. Administrative systems and processes have also improved. With the new management team now in place I believe Ōtakanini Tōpū is in a strong position moving forward.

Ngā mihi,

James Anderson B Agr Sc (Hons) Agricultural Consultant

Annual Farm Report FY2021.docx

### UPDATE ON MARINE AND COASTAL AREA (MACA) CLAIM

**Prepared by Malcolm Paterson** 

### Background

Marine and Coastal Area (Takutai Moana) Act

The Act came into force in 2011.

The purpose of the Act is to:

a) "establish a durable scheme to ensure the protection of the legitimate interests of all New Zealanders in the marine and coastal area [a.k.a. foreshore and seabed] of New Zealand;

b) recognise the mana tuku iho exercised in the marine and coastal area by iwi, hapū, and whānau as tangata whenua;

c) provide for the exercise of customary interests in the common marine and coastal area (CMCA); and

d) acknowledge the Treaty of Waitangi (te Tiriti o Waitangi)."

The Act repeals the Foreshore and Seabed Act 2004 and restores the customary interests extinguished by that Act.

### What does the Act do?

- "Creates a common space in the marine and coastal area (the CMCA) that cannot be owned by anyone and therefore cannot be sold.
- Provides legal recognition and protection of customary interests in the CMCA,

through protected customary rights (PCRs) and customary marine title (CMT).

- Examples of PCRs might include the launching of waka, the removal of material such as sand, shingle, pumice, mud and hāngi stones, noncommercial aquaculture, and non-commercial customary fishing for species that are not subject to a Treaty of Waitangi settlement
- Provides that local authorities are prohibited from granting a resource consent for an activity that will, or is likely to, have more than minor adverse effects on the exercise of a PCR (with some exceptions) unless the PCR group gives its approval.
- Provides that the rights conferred by CMT include the right to give or decline permission for activities being carried out under a resource consent in a CMT

Ō T A K A N I N I T Ō P Ū

area (with some exceptions) and the right of CMT groups to create a planning document.

• Provides that the exercise of rights associated with CMT and PCR cannot limit or

affect:

- o resource consents in place at the commencement of the Act;
- any activities that can be lawfully undertaken without resource consent or other authorisation (except in a wāhi tapu area – see below);
- $\circ$   $\;$  resource consents for emergency activities;
- future coastal permits to allow existing aquaculture activities to continue on the same site; and
- in the case of CMT, activities in the national and regional interest such as certain future infrastructure and regional council research and monitoring.
- Creates two pathways for establishing legal recognition of PCR and CMT: in the High Court or via a recognition agreement directly with the Crown.
- Provides for public rights of free access, fishing and navigation to coexist with CMT, except in wāhi tapu areas (defined areas of significance to CMT holders,

such as burial grounds)."

### Ōtakanini Tōpū's application under the Act

The Act was discussed at previous AGMs and accordingly in 2017 the Topū made an application to the High Court for recognition of its protected customary right and customary marine title - to both the western and eastern coastal marine areas associated with the property.

The Topū was (and continues to be) assisted in making its application by barrister Tama Hovell.

Google Earth map of Ōtakanini Tōpū and its frontages onto both the Tasman Sea and Kaipara Harbour

### Where things are at

There are multiple over-lapping claims that include the coastal marine areas associated with the Tōpū. Of the overlapping claims there are applications by other groups who share whakapapa links to the members of the Tōpu, such as Te Rūnanga o Ngāti Whatua, (an application in the name of) Te Taoū, and Ngā Maunga Whakahii o Kaipara. The Tōpū is in communication with these three groups regarding our claims.

There are also over-lapping claims from 'non-affiliated' groups, such as Ngāpuhi.

### <u>Mandate</u>

The Crown requires that:

- "the representative person or entity have a mandate, from the iwi, hapū or whānau they purport to represent, to engage with the Crown for recognition of customary marine title and protected customary rights under section 95 of the Act;
- a fair, open and transparent process has been undertaken to secure that mandate; and
- the mandated representative person or entity will be accountable to the applicant group."

Although the Tōpū's Committee of Management is obviously elected by shareholders to represent them and is accountable to them, there may be a mandate issue in that the Tōpū is not a traditional "iwi, hapū or whānau" as described by the Crown. Having said that, nor are the Rūnanga or Ngā Maunga Whakahii o Kaipara (a 'post-settlement entity'). Te Taoū is a hapū but the application in that name will have to prove its mandate to represent Te Taoū.

Likewise the Topū, Rūnanga and Ngā Maunga Whakahii may all have issues with the definition of customary marine rights:

- \* "has been exercised since 1840; and
- \* continues to be exercised in a particular part of the common marine and coastal area in accordance with tikanga by the applicant group, whether it continues to be exercised in exactly the same or a similar way, or evolves over time"

### Funding to proceed with the Topu's claim

In preparation to research and assemble the evidence for its claim under the Act, the Tōpū has applied for Crown funding in the order of \$200 000. This would also cover legal support. If the Tōpū is successful in receiving this funding, then it can appoint someone to manage the claim. If it is unsuccessful, then the full monetary and time cost to do so would fall on

) TAKANINI TŌPŪ

the Topū itself – which would be a major financial impact and distraction from the core farming and forestry activity of the incorporation.

Pros and cons of pursuing a claim

Pros

Securing customary marine title and protected customary rights adds another layer of control for the Tōpū over its coastal land and associated waters and resources, eg:

- "Provides that local authorities are prohibited from granting a resource consent for an activity that will, or is likely to, have more than minor adverse effects on the exercise of a PCR (with some exceptions) unless the PCR group gives its approval.
- Provides that the rights conferred by CMT include the right to give or decline permission for activities being carried out under a resource consent in a CMT area (with some exceptions) and the right of CMT groups to create a planning document."

If the Tōpū doesn't secure this control, then another organisation (eg. the Rūnanga or Ngā Maunga Whakahii o Kaipara – or even a group affiliated with another iwi) likely will. This could, for example, mean that it is able to restrict the Tōpū from gaining or exercising resource consent to undertake activities in its own coastal marine area.

Cons

- There is a time and financial cost to pursuing a claim (note this would be largely negated for the Topū if Crown funding is received)
- There could be conflict with over-lapping claimants (note if the Topū doesn't gain CMT or PCRs, then there may be future conflict anyway if a group that looks to restrict the Topū's activities in the property's coastal marine area)

### Discussion and proposed resolution for the 2021 AGM

The Committee of Management seeks input from shareholders about the Topu's MACA claim, particularly:

- Do shareholders still think it is worth pursuing?
- Do shareholders think the Topū is the best organisation to represent their interests in the coastal marine area associated with the Topū, or is it a different body (eg. the Rūnanga, Ngā Maunga Whakahii o Kaipara or 'Te Taoū')?
- If the Topū fails to secure Crown funding, would shareholders still expect the Committee of Management to pursue a claim?

Discussion at the AGM may lead to resolutions being proposed, but otherwise the Committee of Management is likely to propose the following:

"The shareholders of the Ōtakanini Tōpū resolve that the Committee of Management, if successful in receiving Crown funding, pursue the Tōpū's claim for protected customary rights and customary marine title, in the best interests of the incorporation and its shareholders."

# Notes to the Special Purpose Financial Statements

### Otakanini Topu Inc For the year ended 30 June 2021

### **1. Statement of Accounting Policies**

These are the Special Purpose Financial Statements of Otakanini Topu Inc, Maori Authority registered under the Te Ture Whenua Maori Act 1993.

### **Basis of Preparation**

Otakanini Top Inc is not considered "large" as defined for a Maori Incorporation, as total revenue does not exceed \$10 million.

These financial statements have been prepared in accordance with the Special Purpose Framework for use by For-Profit Entities (SPFR for FPEs) published by Chartered Accountants Australia and New Zealand and have been prepared for

- Inland Revenue
- Internal Management purposes

### **Measurement Base**

The Special Purpose Financial Statements do not comply with generally accepted accounting practice. The Special Purpose Financial Statements of Otakanini Topu Inc have been prepared on a historical cost basis, except as noted otherwise below. The information is presented in New Zealand dollars (NZ\$) and all values are rounded to the nearest NZ\$, unless otherwise stated.

### **Changes in Accounting Policies**

The Special Purpose Financial Statements have been completed in a new accounting system for the first time this year. This has resulted in some amounts in the various movement reports, such as the Statement of Financial Position, Statement of Movements in Equity, and some of the Financial Notes, where the amounts for the 2020 year are showing differently or appearing in different sections. This is a result of bringing in these balances for the first time in the 2020 comparative numbers. The closing balances for these accounts in 2020 are consistent with prior reported and audited results, however the 2020 movement balances have been adjusted to enter these amounts into the updated accounting system.

All other Accounting Policies have remained consistent and the entries have been reported on a consistent basis.

### (a) Revenue

Sales of goods and/or services are recognised when they have been delivered and accepted by the customer.

Interest income is recognised using the cash basis method.

### (b) Property, Plant & Equipment

The entity has the following classes of Property, Plant & Equipment

- Buildings Makarau
- Buildings Southhead
- Furniture & Fittings
- Land
- Land Development Makarau

- Land Development Southhead
- Motor Vehicles Makarau
- Motor Vehicles Southhead
- Plant & Equipment Makarau
- Plant & Equipment Southhead

Land and buildings have been revalued by \$12,800,000 to reflect the 2017 Government Valuation.

Depreciation has been calculated in accordance with rates permitted under the Income Tax Act 2007.

#### (c) Goods & Services Tax

These Special Purpose Financial Statements have been prepared on a GST exclusive basis with the exception of accounts receivable and accounts payable which are shown inclusive of GST.

#### (d) Taxation

Income tax is accounted for using the taxes payable method. The income tax expense charged to the Special Purpose Statement of Financial Performance is the estimated tax payable in the current year, adjusted for any differences between the estimated and actual tax payable in prior years.

#### (e) Biological Assets

Livestock has been valued in accordance with the current Income Tax Legislation at values as set out in the livestock trading accounts. No estimate of market values for livestock has been made.

#### (f) Investments

Share investments in listed and unlisted companies are stated at cost, as these holdings are integral to farming operations. should the nature of these farming activities change, impairment indicators would be considered.

All Term Deposits are classified as Investments.

#### (g) Receivables

Receivables are stated at their estimated realisable value.

Bad debts are written off in the year in which they are identified.

#### 2. Contingent Liabilities

#### **Unclaimed Dividends**

As defined in the Te Ture Whenua Maori Act 1993 Section 267 (1) unclaimed dividends means "dividends in the hands of the incorporation that have been held by it or by a preceding incorporation of body corporate(including the Maori Trustee) for at least 10 years without payment to the shareholder or other person entitled". In accordance with Section 267 (2) of the Act, the incorporation is required, within 12 months of the dividends becoming unclaimed to compile a list of the shareholders to whom those dividends are payable, setting out the amount of unclaimed dividends held for each shareholder and shall transmit the list to the Registrar of the Maori Land Court. The Incorporation is currently undertaking a review of the share register to determine the amount of unclaimed dividends to be provided to the Maori Land Court. The Incorporation carried out a review of Dividends paid from 1998 to 2002 to identify all unpresented cheques, which have been written off. The total value of unpresented cheques identified was \$41,362 but the review could result in amendment to this amount. Since 2002 a further \$59,464 unpresented dividend cheques have been written off.

#### 3. Related Parties

The accompanying notes form part of these Special Purpose Financial Statements. These Special Purpose Financial Statements should be read in conjunction with the attached Audit Report.

There were no material transactions with any related parties during the period under review.

#### 4. Securities and Guarantees

Bank of New Zealand have a registered security over all livestock.

#### 5. Forestry

Forestry is recorded at cost \$64,900. It is estimated that the market value of the forest is \$4,181,000.

The forest is also pre-1990 and therefore was given 35,340 carbon units as part of the government agreement. These units will need to be surrendered on harvest should the forest not be replanted.

#### 6. Future Capital Commitments

There are no future capital commitments.

#### 7. COVID-19

The Coronavirus/COVID-19 outbreak, which has become a global pandemic, present strategic and commercial uncertainties. Given the continued uncertainty worldwide with regard to COVID-19, it is not possible to quantify the subsequent financial impact on the entity and its future operations.

The risks that Otakanini Topu Inc are exposed to from Covid-19 include disruption to markets and supply chains.

#### INDEPENDENT AUDITOR'S REPORT

#### To the Shareholders of Otakanini Topu Incorporation

#### Opinion

We have audited the special purpose financial statements of Otakanini Topu Incorporation, which comprise the statement of financial position as at 30 June 2021, and the statement of financial performance, statement of movements in equity and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion the accompanying special purpose financial statements of Otakanini Topu Incorporation on pages 6 to 23, present fairly, in all material respects the financial position of the entity as at 30 June 2021, and its financial performance for the year then ended in accordance with the Special Purpose Financial Reporting Framework for For-Profit Entities (the Framework) published by Chartered Accountants Australia & New Zealand (CAANZ) and also the requirements of Te Ture Whenua Maori Act 1993.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (New Zealand) (ISAs (NZ)). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements section of our report. We are independent of the Entity in accordance with Professional and Ethical Standard 1 (Revised) Code of Ethics for Assurance Practitioners issued by the New Zealand Auditing and Assurance Standards Board, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other than in our capacity as auditor we have no relationship with, or interests in, Otakanini Topu Incorporation.

#### Emphasis of Matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 1 to the special purpose financial statements, which describes the basis of preparation. The special purpose financial statements are prepared for Inland Revenue and internal management purposes. As a result, the special purpose financial statements may not be suitable for another purpose. Our report is intended solely for the entity, executive committee and its shareholders and should not be distributed to or used by parties other than the entity, executive committee or its shareholders. Our opinion is not modified in respect of this matter.

#### **Emphasis of Matter – Shareholder Register Audit**

We draw your attention to Note 2 Contingent Liabilities, which states that a shareholder register audit was completed and is currently undergoing a Maori Land Court review. Under section 263 of Te Ture Whenua Maori Act 1993, the entity has to keep a share register and index of shareholders. Our opinion is not modified in respect of this matter.

#### **Emphasis of Matter – Covid-19**

Without modifying our opinion, we draw attention to Note 7, which explains the impact and uncertainty of the Covid-19 Pandemic on Otakanini Topu Incorporation .

#### Who we report to

This report is made solely to Otakanini Topu Incorporation's shareholders, as a body, in accordance with the requirements of Te Ture Whenua Maori Act 1993. Our audit work has been undertaken so that we might state to Otakanini Topu Incorporation's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than Otakanini Topu Incorporation and its shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

#### Executive Committee's Responsibilities for the Special Purpose Financial Statements

The Executive Committee is responsible for the preparation of the special purpose financial statements in accordance with the Special Purpose Financial Reporting Framework for For-Profit Entities (the Framework) published by Chartered Accountants Australia & New Zealand (CAANZ) and also the requirements of Te Ture Whenua Maori Act 1993 and for such internal control as the Executive Committee determines is necessary to enable the preparation of special financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the special purpose financial statements, the Executive Committee is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Executive Committee either intends to liquidate the entity or to cease operations, or have no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (NZ) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these special purpose financial statements.

As part of an audit in accordance with ISAs (NZ), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement of the special purpose financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

• Obtain an understanding of internal control relevant to audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Executive Committee.

• Conclude on the appropriateness of the use of the going concern basis of accounting by the Executive Committee, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the special purpose financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with the Executive Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Ōtakanini Tōpū Incorporation

### ACCOUNTANTS REPORT

Todd Wilkin, CA MInstD | Withers & Co Ltd | Year Ended 30 June 2021

#### To the Shareholders of Ōtakanini Topū Incorporation

#### Tēnā koutou.

Thank you for inviting me back to present to the shareholders of Ōtakanini Topū.

This year has been another challenging year for many organisations, particularly in the

primary sector, with the drought and Covid-19 impacting significantly on operations. Although 2021 has seen another net loss from farming of \$34,289 and an overall net loss of \$9,889 for the Tōpū, the underlying performance of the farming operations has improved to \$105,016. The underlying performance has been adjusted for one-off legal costs and

the forestry valuation costs of \$38,436 that were only paid in the 2021 financial year.

The sale price has dropped markedly in 2021 across all livestock values. The impacts of

tidying up operations and the time taken to employ a permanent farm manager impacted on returns. Unfortunately, the lamb prices were impacted by the longer drought and did not achieve the target prices expected and were sold at lower prices than forecast. The numbers of livestock owned has remained relatively stable over the last four years.

Farm working expenses excluding wages costs have increased 13% on last year

with investments back into the farm seeing increases in fertilizer, pasture renewal, and increases in weed control both of which are investing in the future viability and performance of the farming operation.

Wages as a percentage of farming income is currently at 23.6% and represents 22.9% of the overall cash expenses of the Incorporation. This has dropped significantly, however, is reflective of the time taken to recruit a permanent Farm Manager and the lower staffing as a result. Wages costs will increase in 2022.

The structure of the balance sheet is very solid, with a ratio of liquid assets (current assets plus livestock) to current liabilities of 3.2, which indicates there are \$3.16 of liquid assets for every \$1.00 of current liabilities, which is a strong liquidity position.

There is still a requirement to invest in the fixed assets of the farm, and the committee of management are understood to have organised a strategy day for early 2022 to plan for the future. This is in line with the recommendation from both Anderson Consulting and myself and should deliver well for the future.

There are ~\$707k in relation to unclaimed dividend monies. This balance has decreased from 2020 by ~\$23k.

Overall, this has been a challenging year for the farming operations, however, the underlying performance of the farm is improving. The investments in the productive capacity of the land should start to deliver dividends and the committees moves to define its strategy and plan for the future should start to see results.

Nga mihi,

10dd h filler

Todd Wilkin CA, MInstD Director – Withers & Co Ltd

### ŌTAKANINI TŌPŪ INCORPORATION ANNUAL GENERAL MEETING MINUTES 2020

Ōtakanini Haranui Marae 12 December 2020

#### Attendees

Allenuees		
Pumau Reweti	Colleen Timoti	Maramatanga Stead

	Phillip Hill)	

#### **Committee of Management**

Michelle Hill	Trisya Hemana	Jeffrey Bradly
Chairperson	Secretary for Komiti	Farm Delegate
Awa Hudson		
Long Standing Committee		
Member		

#### Minute Taker

Suzanne Clarke-Taipeti

Tīmatanga: 10:35 am The AGM was opened with a karakia: Elon Bycroft. Acknowledgement of karakia: Awa Hudson. Mihi tautoko: Wiremu Tane Housekeeping: Trisya Hemana

Chair, Michelle Hill greeted the assembled whānau and outlined the proceedings for the day, noting this was her first AGM as Chair. Chair also introduced kaimahi for the hui; Suzanne Clarke-Taipeti – Minute Taker Todd Wilkin – Director, Withers & Co Ltd Craig Taylor – Business Manager, Independent Election Services Ltd Stacey Siddle – Administration Manager, Independent Election Services Ltd

Chair called for any other Agenda items and one (1) is received from George Hill regarding Tarawera Road. This was confirmed on the Agenda in General Business.

#### **Shareholding and Hui Resolution Voting**

Chair asked shareholders present how they would like to proceed with the hui regarding hui resolutions and the voting process for new Committee Members.

#### **Resolution:**

That the shareholders present agree to vote by *show of hands* for any resolutions in this hui and the *shareholdings* of shareholders be used in the Election of Committee members.

Moved: Kim Bowater-Fill	Seconded: Inutai Povey	Carried
Abstain: Darren Povey		

#### **Apologies**

Dianne Cartman	Sharon Dempsey	Diane Bowater
Phillips & Reweti Whānau	Doris Povey	Mary-Jane Povey- Harte
Takiri Puriri	Glendith Samson	P Shortland
Bruce Stead	Phillip Tane	Ramona Taogaga
Priscilla Bowater-Gudsell	Phillip Tame	Hilda Shortland

#### **Resolution:**

That the apologies be received	ed and confirmed.
Moved: Malcolm Paterson	Seconded: Connie Povey

Carried

#### **Resolution:**

That the AGM 2019 Minutes be received and confirmed. Moved: Tuata Cruickshank Seconded: Malcolm Paterson

erson Carried

#### Matters Arising

• Tuata Cruickshank queried about the 1500 stock that went missing. Chair advised this loss was reflected in the AGM Report and better management and security around stock is definitely a concern of the Komiti.

- Connie Povey expressed her concern around the figures used in the 2018 AGM Annual Report which did not correctly reflect the operations of that year when compared with the farming operations of 2008.
- Kim Bowater-Fill expressed her concern over Tarawera Road. This item is deferred to General Business.

#### Elections 2020

Chair, Michelle Hill deferred the Chairs Report because of the time restraints and wanted to ensure shareholders were fully aware of the voting process.

The Committee of Management engaged Independent Election Services Ltd to run the Election process for the incoming Committee members. Craig Taylor explained the voting process in detail and encouraged shareholders who did not receive a voting form to register and collect their voting forms. The votes would be decided by shares held.

Craig advised voting opened on (26 October 2020 and would close at 12pm today (12 December 2020). Five nominations were received and confirmed. Candidates standing for the Elections are: Ngarimu Blair

Tuhi Leef Marama Stead Eve Steenson Robin Williams

Proceedings commenced with each candidate addressing the assembly with a five minute presentation. The results of the election will be announced by Craig Taylor at the conclusion of this hui.

#### **Chairs Report**

Chair, Michelle Hill read report in detail.

Te Kahui-iti Morehu expressed her concern about three Committee of Management members and the Farm Manager resigning from the business of the Topu. Chair responded and advised that it was at their discretion and further information or comment could only come from those that resigned.

Harry Hill also commented and said he tautoko'd their appointment and was discouraged when they resigned.

Rongopai Morehu asked why only some whānau received meat kai contribution, from the 5 beasts that were koha'ed to the five South Kaipara marae.

It was explained that from the board's perspective, in times of Covid-19, it was hoped that by giving each marae a beast, that as many shareholders and whānau would receive something. It was also noted that the distribution of the meat portions was at the discretion of each marae not Ōtakanini Tōpū.

### **ΟΤΑΚΑΝΙΝΙ ΤΟΡŪ INCORPORATION**

#### Action:

- 1. Committee of Management to develop a Kai Distribution Policy.
- 2. Committee of Management to plan a workshop with whanau/shareholders to develop strategic outcomes.

Malcolm Paterson supports and understands the decision from Committee of Management to have no dividend distributed to shareholders.

#### **Financial Report**

Todd Wilkin – Director/Chartered Accountant, Withers & Co Ltd presented financials. Todd highlighted that this year has been challenging for many organisations, particularly at the primary sector with the droughts and Covid-19 impacting significantly on operations.

- 2020 has see the incorporation incur a loss of \$47,994 from its farming operations.
- Fixed assets valued at \$1010.5K at purchase and have a current book value of \$388.2K. This suggests assets will need replacing.
- Liability of \$730K in relation to Unclaimed Dividend monies need to be put aside. •

#### Recommendation: No dividend distribution to shareholders this financial year.

Todd answered questions from shareholders, he also supported the need to refresh the strategy to determine goals and objectives of the Incorporation.

Wiremu Tane requested page by page review of the financials. This was rejected as there was not enough time to complete this task.

#### Action:

- 1. Committee of Management to consider more time at next AGM Hui to discuss financial accounts.
- 2. Committee of Management to look at running workshops for shareholders to understand financials.

Any questions regarding the shareholding to be directed to Trisya Hemana.

#### **Resolution:**

There will be no Share Dividend distributed to the Shareholders for the Financial Year 2020. Moved: Malcolm Paterson Seconded: George Hill

#### **Resolution:**

To receive and confirm the Consolidated Financial Statements for the Year ended June 2020. Moved: Malcolm Paterson Seconded: George Hill

#### **Resolution:**

That the Auditors Report for the Year ended 30 June 2020 from JSA Audit Ltd Chartered Accountants be received and confirmed. **Moved: Malcolm Paterson** 

Seconded: George Hill

#### **Resolution:**

That JSA Audit Ltd Chartered Accountants be confirmed as Auditor and Share Valuer for 2020/2021.

Moved: Kim Bowater-Fill

Seconded: Malcolm Paterson

#### **Resolution:**

That the remuneration for the Committee of Management members of Ōtakanini TōpūIncorporation remains unchanged for the 30 June 2021 financial year.Moved: Connie PoveySeconded: Tuata Cruickshank

Chair advised that the current members of the Committee of Management did not take fees this year.

#### **General Business**

George Hill and Kim Bowater-Fill gave a historical account of the paper road known as Tarawera Road. Both were adamant that this road could not be locked however Chair noted due to the farm being on either side of this road there was a Health & Safety risk. Understandably this issue is raised yearly and the Committee of Management will consider viable options.

#### **Election Results**

Craig Taylor from Election Services read out the results and declared that the successful candidates are: Eve Steenson Tuhi Leef Marama Stead

Chair, Michelle Hill thanked all the whānau for attending this hui and the meeting was declared closed.

#### Karakia Whakamutunga: Wiremu Tane

2:15 pm

- George Hill addressed all Committee of Management members after the hui had officially closed regarding Tarawera Road. This has been included in General Business as George Hill had asked at the commencement of the hui for his item to be presented at that time.
- The Committee of Management apologise for their error.
